

## PETROLEUM FUND QUARTERLY REPORT

Quarter ended 31 March 2013

### PRESS RELEASE

The Banco Central de Timor – Leste (BCTL) today released the Quarterly Report ended 31 March 2013 of the Petroleum Fund of Timor-Leste showing that the Capital of the fund as of 31 March 2013 was \$12.98 billion compared to \$11.78 billion at the end of December 2012.

The report shows that the gross capital inflows during the quarter were \$ 946.12 million, consisting of \$ 377.88 million as contributions of taxpayers to the Fund, royalty contributions from the NPA (National Petroleum Authority) of \$ 559.97 million and other receipt of \$ 8.29 million.

The investment income of the Fund was \$265 million of which the coupon and interest received was \$57.80 million and the change in the market valuation of its financial assets was \$208.82 million. This resulted in a portfolio return of the Fund for the quarter of 2.18%, while the benchmark return for the period was 2.07%. The portfolio return was 0.11% above the benchmark return.

The Petroleum Fund law specifies that the Operational Manager (Banco Central de Timor-Leste), is the agent responsible for the operational management of the Fund. The Ministry of Finance is responsible for setting the overall investment strategy for the Fund.

Following Minister's decision on increase of equity exposure, the existing equities manager' exposure was increased gradually and achieved 28% in March 2013.

Following the Investment Management Agreement signed in February 2013 with Black Rock Investment Management (Australia) Limited of an Indexed global equities mandate, the Black Rock mandate was implemented in mid- February 2013.

The mandate given to BIS was to manage a single US Treasury 5-10 years index with the same risk and return characteristics of outperforming the benchmark while maintaining an ex-ante tracking error within 100 basis points.

The mandate given to Schroders is to manage the portfolio in an enhanced passive indexing style and maintained within a tracking error relative to the benchmark that does not normally exceed 100 basis points, and with load differences maintained within 0.5% (security level) and 2.5% (country and sector levels). At no time shall the ex-ante tracking error exceed 150 basis points.

The mandate given to State Street Global Advisor (SSgA) is to be managed in a passive indexing style with the objective to seek to closely match the Performance Benchmark, before tax and fees
