

COMISSÃO NACIONAL DE APROVISIONAMENTO GABINETE DO PRIMEIRO-MINISTRO

Consultancy Services for Pre-Front End Engineering Design (Pre-FEED) Study for LNG
Plant TIMOR-LESTE

CONTRACT NO. : RFP/045/MPRM-2014

CLARIFICATION NO.: 2

03 September 2014

Sr. No.	Questions/Queries	Response
1	A topographic site survey is requested as part of the submission in Section 5 – Terms of Reference, Section 2.1 Site Selection. Having reviewed the Geotechnical Factual Report and associated Appendices for the NEARSHORE AND ONSHORE SURVEY SERVICES FOR A PROPOSED LIQUIFIED NATURAL GAS FACILITY AT BEACO, TIMOR-LESTE, CONTRACT No: STA-SERN-001 we feel that a further topographical survey at this pre-FEED stage will not add any value and is therefore it has not been included in our proposal. Please can RDTL confirm that additional survey is not explicitly required or otherwise as part of the scope.	Confirmed; that topographic survey is not required at this stage.
2	Please confirm that Papua New Guinea is classified as being a “similar region” (i.e., Southeast Asia) for inclusion in TECH-2C.	Papua New Guinea is not similar region
3	We are making the assumption that taking seawater can be used for all water users on the LNG Plant and that this will be acceptable from a Hydrology and Environmental perspective. Can RDTL please confirm this is the case?	To be studied in pre-FEED by taking into accounts the costs vs. fresh water availability nearby, etc.
4	Will the winning consultant be required to have local business registration?	Yes: In accordance with Decree Law4/2004, all consultants, contractors, suppliers must have a business certificate issued by the Serviço de Registo e Verificação Empresarial (SERVE) an office under Ministry of Finance. The bidders are advised to visit their website. www.serve.gov.tl
