

## Development Cooperation Report 2015 Update

The Aid Transparency Portal is used to track all donor grant funds into Timor-Leste. This is the tool that the Government relies on to monitor trends in donor assistance and it is vital that we receive quality and timely information from donors. This is due to two reasons: first, the availability of quality information allows the Government to properly budget its own programs and avoid duplication of efforts, secondly, it provides Government with the necessary tools to track funds that are dedicated to Timor-Leste, thereby identifying trends and gaps in ODA.

For the past several years, the Development Partnership Management Unit has published the Development Cooperation Report in time for distribution in the Timor-Leste Development Partners Meeting. This year however, at the time of printing, it has come to the attention of the Unit that there was a significant error in a donor's entry, thereby affecting all aspects of the report. Therefore, the DPMU has decided to delay the publication of the Development Cooperation Report to address the inaccuracy and perform an analysis on the new dataset. We thank you for your patience and look forward to providing you with a higher quality publication that could serve as a knowledge resource for all development partners.

## Atualiza Relatoriu Koperasaun Dezenvolvimentu 2015

Portal transparensia Ajudua(PTA) ne'ebe uza hodi buka hatene fundus subvensaun husi doador ba Timor-Leste. PTA hanesan feramenta ne'ebe Governu konfia hodi monitor tendensia ba assistensia doador no PTA importante hodi simu informasaun ne'ebe kualidade nomos pontualidade husi doador.
