Tibar Bay Port

Summary of Advisory Services Project Information

This Summary of Advisory Services Project Information (ASPI) is prepared by IFC to disclose a factual summary of the main elements of this advisory services project. It may also include findings and recommendations related to environmental and social considerations regarding this project. The purpose of the ASPI is to enhance the transparency of IFC's activities. IFC notifies the client prior to the release of any project documentation or data included or attached herein that has been prepared by the client. IFC considers that this ASPI is of adequate quality for release to the public, but has not necessarily independently verified all of the project information therein.

It is distributed within sixty days of project's approval and may be updated periodically afterwards. Total budget and start dates are estimates only.

Project Description

IFC will provide support to the Government of Timor-Leste to structure and implement a Public Private Partnership (PPP) project for the proposed Tibar Bay port. IFC assistance will cover all project pre-investment activities including due diligence review, transaction structuring, marketing and promotion, contract preparation and development of bid/tender documents, as well as supporting the client during the bidding process up to the award of the concession contract.
