

Reliance holds interest in 32-exploration acreage in India in a consortium with other E&P companies. These blocks cover a wide range of geological settings, spanning onland, shallow and deep waters on East and West Coast of India. Reliance has also acquired interest in an exploration block in Yemen during the year 2002. Reliance is Operator in all 32 exploration blocks.

Onland	5 (1 overseas)
Shallow water	16
Deepwater	12

These blocks have been awarded through a process of open, competitive, international bidding.

Reliance is deploying state-of-the-art technology for the project, covering all activities, such as seismic studies, processing and interpretation of data, drilling, LWD-MWD, Coring, MDT, Well testing etc.

Reliance now has 32 blocks, with a total oil and gas exploration acreage exceeding 230,000 sq.kms.
