

REPÚBLICA DEMOCRÁTICA DE TIMOR-LESTE

State Budget 2014

Development Partners

Book 5

“Be a Good Citizen. Be a New Hero to our Nation”

Book 5 – Development Partners

Preface

The Organic Law of the Ministry of Finance specifies the responsibility of the National Directorate of Budget to collect and manage financial information relating to the public sector and publish the statistical results.

In accordance with this provision and to raise the transparency of the public finance, the Ministry of Finance is publishing the final version of the documents relating to the General Budget of the State 2014, promulgated by His Excellency President of the Republic, following the debate in the plenary session of the National Parliament.

The documentation for the General Budget of the State 2014 consists of the Budget Law, which is published in the *Journal of the Republic*, plus six supporting budget books:

- Book 1 Budget Overview
- Book 2 Annual Action Plans
- Book 3 Districts
- Book 4a and 4b Budget Line Items
- Book 5 Development Partners**
- Book 6 Special Funds

Book 5 *Development Partners* gives details of committed funding from Timor Leste’s development partners up to 2017. The information here is detailed at the level of development partner, implementing agency, project and district. It will inform the public on the ongoing activities and support to Timor Leste by our development partners.

Budget documentation is available on the website Ministry of the Finance, www.mof.gov.tl. Inquiries relating to the publication should be directed to the National Director of Budget, Mr. Salomão Yaquim on email syaquim@mof.gov.tl or telephone +670 333 9520.

As Timor Leste “be a good citizen, be a new hero for our nation”, I believe that this document will increase awareness and understanding of the Government’s finances by providing the people of Timor Leste, civil society and our development partners with relevant information on the 2014 State Budget.

Emília Pires

Part 1: Development Assistance in Combined Sources Budget 2014

As envisaged in Article 23.4 (b) of Parliamentary Law 13/2009, 21st of October on the Budget and Financial Management Law, the General Budget of the State of Timor-Leste must indicate funding by Development Partners (DPs). The Combined Sources Budget (CSB), which is the combination of the general state budget and external assistance provided by DPs, is an important concept in Timor-Leste, as external assistance has substantially contributed to the development of Timor-Leste since its independence. Although the relative size of external assistance as a percentage has decreased as a result of the rapid expansion of the state budget in the recent years, external assistance has constantly exceeded more than US\$200 million per year for the past 11 years.

External assistance indicated in this 2014 Budget Book is an integral part of the CSB. It contains the Official Development Assistance (ODA) to be provided by multilateral and bilateral donors to the Government of Timor-Leste (GoTL). It also includes the ODA projects executed in direct collaboration with Government Ministries, as well as through Non-Governmental Organizations (NGOs). In Chapter 5, all the ODA projects to Timor-Leste are presented in accordance with the Democratic Republic of Timor-Leste (RDTL) beneficiary institutions.

In 2014, a total of US\$216.0 million is currently under preparation to be provided to Timor-Leste by DPs. The majority of this is categorized as off budget grants for ongoing and planned projects (US\$184.9 million). It also includes US\$31.1 million in on-budget loans for four projects, which are on-going, and some new projects being planned. Only the external assistance by off-budget grants (US\$184.9 million) are indicated as “Development Partner Commitments” in the Budget Book No.1, in order to avoid duplicated calculation.

It should be noted that all off-budget Grant information presented in this Budget Book is in derived from the Aid Transparency Portal (ATP), the Government database to which DPs are responsible for providing data on all of their contributions. Information regarding on-budget loans was obtained from the Major Projects Secretariat. In order to assist the Government to prepare the General Budget of the State for 2014 and for more general aid coordination and effectiveness purposes, DPs are requested by the Ministry of Finance (MoF), GoTL, to update the ATP on a quarterly basis. Most of the data in this Budget Book was generated after the July-August 2013 update, on 26 August 2013.

Part 2: National Development Plans

2.1 Strategic Development Plan 2011-2030

Timor-Leste's Strategic Development Plan 2011-2030 (SDP) was released in July 2011 and articulates Timor-Leste's vision of development for the next two decades. It is based on "Timor-Leste 2020: Our Nation Our Future," and is aligned with the United Nations' Millennium Development Goals (MDG). The SDP is an integrated package of strategic policies, which aims to transform Timor-Leste from a low income to upper middle-income country, with a healthy, well educated and safe population by 2030.

The SDP covers four pillars: (1) social capital, (2) infrastructure development, (3) economic development and (4) Institutional Frameworks. Each pillar sets out the areas and programs that need to be completed to achieve the collective vision of the SDP.

The Social Capital pillar focuses on building a healthy and educated society to address the social needs of Timor-Leste's people and promote human development. It covers five main areas: Education and Training, Health, Social Inclusion, Environment, and Culture and Heritage.

The Infrastructure Development pillar is to ensure that the nation has the core infrastructure needed to build a productive, sustainable, growing and connected nation. It covers six areas: Roads and Bridges, Water and Sanitation, Electricity, Seaports, Airports, and Telecommunications.

The Economic Development pillar aims to achieve a prosperous, modern economy and jobs for Timor-Leste's people. It covers five areas: Rural Development, Agriculture, Petroleum, Tourism, and Private Sector Investment.

The Institutional Framework pillar will help to provide an effective framework upon which the three other aspects of Timor-Leste's development will be built. It covers six areas: Security, Defense, Foreign Affairs, Justice, Public Sector Management and Good Governance, National Development Agency/Economic Policy and Investment Agency.

With the signing of the Dili Development Pact at the 2011 Timor-Leste and Development Partners Meeting (TLDPM), the Government of Timor-Leste and its Development Partners came to an agreement that the SDP will be the overarching framework for all programs and projects to align with in the future.

2.2 Program of the 5th Constitutional Government 2012-2017

On 7 July 2012, the Timorese people, voting in free and democratic elections, supported three parties to govern the country from 2012 to 2017. This result allows the 5th Constitutional Government to continue to build on the foundations of a peaceful and stable nation that were laid down by the 4th Constitutional Government. The philosophy of the 5th Constitutional Government is a continuation of the successful programs of the 4th Constitutional Government. Additionally, it will reform the previous programs that did not meet their objectives under the previous Government.

The Program of the 5th Constitutional Government 2012-2017 (The Government Program) is the Government's method for structuring ideas and ideals. It is based on a socioeconomic political philosophy

aimed at delivering better living conditions to the entire Timorese population as soon as possible. The Government Program is based on the SDP and provides a pathway for developing the country over the next five years. It lists what needs to be done in the short term, while incorporating medium term (5-10 years) strategies and not losing sight of the long term (10-20 years). The result will be to fulfill the collective vision of the Timorese people, to have a developed and peaceful nation by 2030.

The Government Program covers four broad areas aligned with the SDP.

Development of Social Capital: The true wealth of the nation is in the strength of its people. Maximizing the overall health, education and quality of life of the Timorese people is central to building a fair and progressive society.

Infrastructure Development: Core and productive infrastructure is necessary for building a modern and productive economy. The scale and cost of infrastructure development is significant; so the Government needs to plan and implement the infrastructure program in an effective and targeted manner.

Economic Development and Job Creation: The Government aims to develop a flourishing market economy with a strong private sector to provide jobs for people and ensure all parts of the nation benefit from the development of Timor-Leste's natural resources wealth. The Government will focus on expanding and modernizing the agriculture sector, building a thriving tourism sector, encouraging higher levels of private sector activity and activating industries, including the growth and expansion of small and micro business.

Consolidation of the Institutional Framework: The public sector will also be the primary driver of economic growth in the medium term and will lay the foundation for the Nation's progress through the development of human resources and managing infrastructure programs. The Government will structure the public service to reflect the realities of the Timorese situation and to best drive the economy and jobs growth.

2.3 The New Deal for Engagement in Fragile States

The "New Deal for Engagement in Fragile States" (*The New Deal*) was presented at the Fourth High Level Forum on Aid Effectiveness in Busan, Korea in November 2011. Since then, more than 40 countries and organizations have endorsed *The New Deal*.

The New Deal outlines a new global paradigm for international engagement in fragile states. It was designed to accelerate the effectiveness of international engagement through the promotion of country-owned and country-led pathways towards peace and resilience. *The New Deal* comprises three components as follows.

1. Peacebuilding and Statebuilding Goals (PSGs): These five goals promote five key peacebuilding and statebuilding areas as the foundations for progress towards the MDGs and to guide the work in fragile and conflict affected states
2. FOCUS: promotes inclusive country-led and country-owned mechanisms for planning and coordination. These mechanisms ask development partners to work with governments towards a single set of peacebuilding and statebuilding priorities, as identified by country stakeholders themselves.

3. TRUST: promotes principles for providing aid and managing resources more effectively and to align these resources for results

Over 2013 the GoTL, as the Chair country of the g7+, has continued to make efforts to elaborate each component of *The New Deal* and to promote *The New Deal* to gain even wider international support. In September 2012, a High Level Side Event at the United Nations (UN) General Assembly was held, with senior level representation, including heads of states and ministers. This event was entitled “*The New Deal: g7+ Perspectives and Experiences.*” The event has generated a high degree of interest in New York and was a critical moment of increased visibility of the g7+ and *the New Deal*, creating further opportunities to play a role in shaping the UN Post-2015 Development Agenda.

The New Deal will continue to be piloted in g7+ countries until 2015. This will ensure the framework is adaptable and implementable, which will enable g7+ countries to achieve country-owned and country-led transitions towards resilience.

In Timor-Leste, a fragility assessment’ was conducted in July-August 2012 as part of the New Deal piloting process. The key results from the assessment are shown as follows:

PSG	Result
PSG2 Security	Has the biggest area of progress
PSG 1 Legitimate Politics PSG 5 Revenue and Services	Has made some good progress
PSG 3 Justice PSG 4 Economic Foundation	The areas that need more attention in the future for improvement

On 26-28 February 2013, an international conference on the post 2015 Development Agenda was held in Dili. Its purpose was to reach a broad consensus on how the specific development challenges faced by fragile and conflict-affected states should shape the post-2015 global development framework. The conference concluded that the social contract between governments and their people must be enhanced by promoting integrated action in the four major areas not adequately addressed by the MDGs: inclusive economic growth, peacebuilding and statebuilding, climate change and environmental management.

Part 3: Improved Development Partnership

3.1 Development Partnership Management Unit

The Development Partnership Management Unit (DPMU), Ministry of Finance (MoF), was established under the new Organic Law for the MoF in 2012. The DPMU is situated directly under the supervision of the Minister of Finance. The responsibility of DPMU includes coordinating and reporting on development assistance provided by the State of Timor-Leste to other countries. Additionally, it helps to ensure the effective use of the external assistance provided by DPs to Timor-Leste, so as to guarantee coordination and harmonization in accordance with the development priorities set by the Government. The DPMU works with the g7+ Secretariat, which provides technical and administrative support to Timor-Leste's participation in the group of member countries in the g7+ initiative, in order to improve the efficiency of development assistance.

3.2 Aid Transparency Portal

The ATP (<https://www.aidtransparency.gov.tl>) is based on the Aid Management Platform (AMP), which is the system that now forms the central database for all aid information in Timor-Leste. The ATP is unique in that it is dependent on development partners' cooperation in providing information on their external assistance; all data are input by development partners themselves. The ATP has enabled the Government to collect more accurate and predictable data and to disseminate the data into more meaningful reports with analyses. Since 2012, the Budget Book No. 5 and the Development Cooperation Reports have been produced through the ATP.

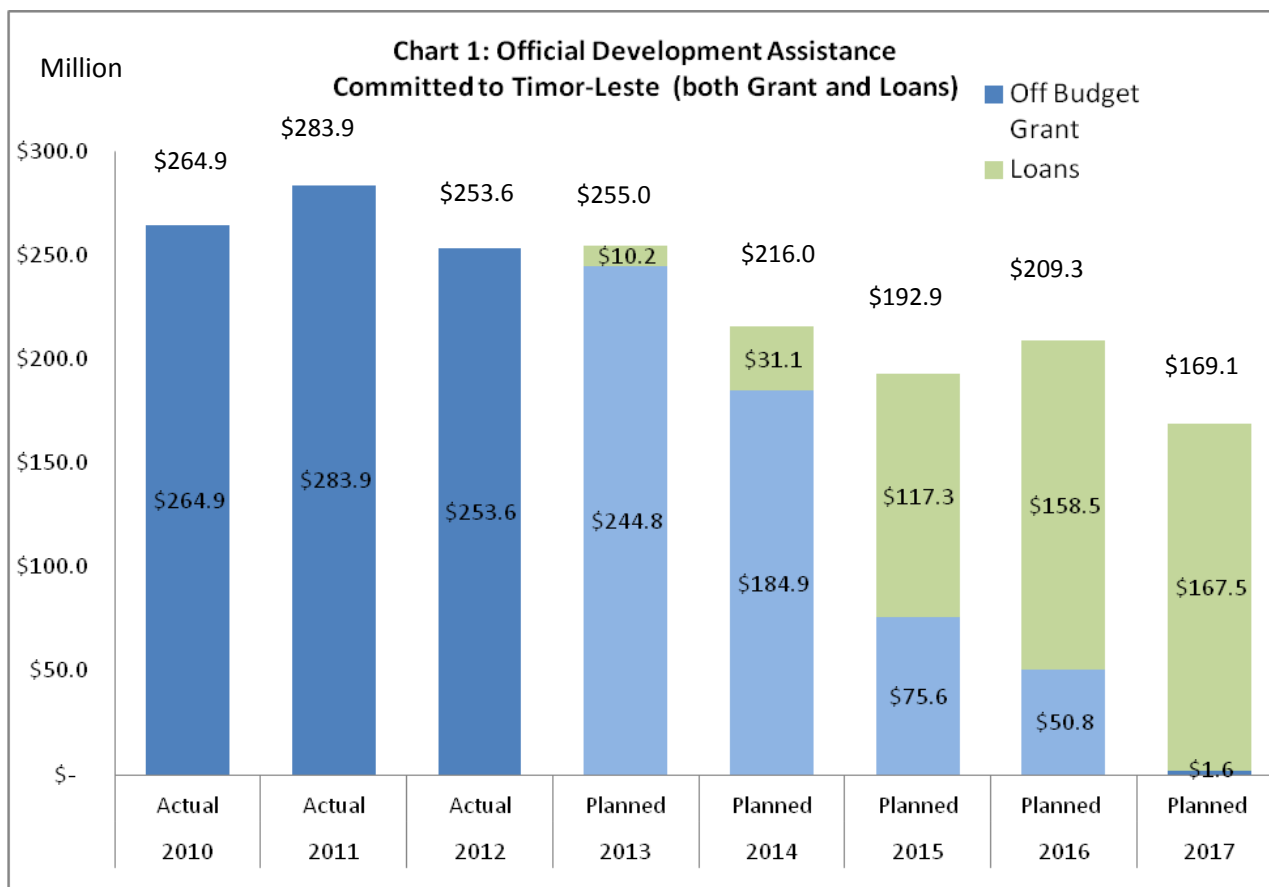

The ATP is also a tool that is not only utilized by DPMU, but allows all government ministries and development partners to better understand the level of Official Development Assistance to Timor-Leste. Equipped with the ATP, DPMU is able to further contribute to preparing quality State Budgets. The integration of the ATP with the Governments budgeting systems will allow for ease of access to current information on all DP assistance, by Government beneficiary institution, region, sector, SDP pillar, DP, providing information on obligations and disbursements.

Part 4: Trend of Development Assistance to Timor-Leste

4.1 General trend

The amount of ODA to Timor-Leste has remained at the level of approximately US\$250 million per annum from 2010 to 2012. The ODA as a percentage of the CSB has become smaller, decreasing from 23.5% in 2010 to 11.0% in 2013 on a planned basis. In 2014, a planned total of US\$216.0 million will be provided to Timor-Leste. This includes US\$184.9 million in off-budget grant and US\$31.1 million in loans.

A significant downward trend in off budget grant is shown between 2014 and 2017; however, this is due to the non-availability of accurate information on planned expenditure in the medium term by a number of DPs, and so does not reflect a lack of international support or commitment. New commitments against future years are expected as time passes.

Source: Grant: Development Partners Disbursement Report (2010) and Aid Transparency Portal (after 2011)

Loan: Information from the Major Project Secretariat

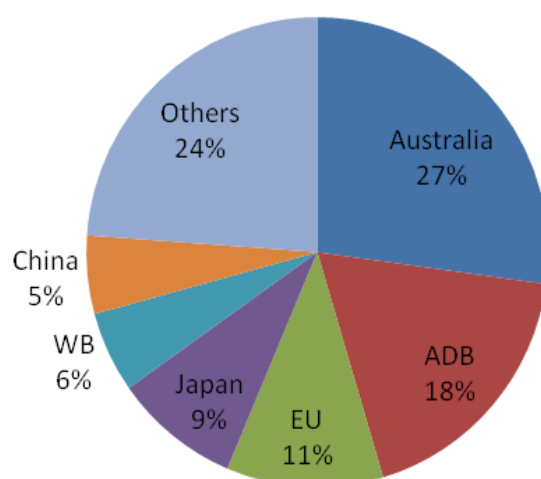

Note: The figure in 2010 represents external assistance to the Government sector only.

The figure in 2013 planned disbursement is from not 2013 Budget Book but Aid Transparency Portal as of 26 August 2013.

4.2 Development partners in Timor-Leste

In 2014, 10 multilateral and 15 bilateral DPs committed to provide ODA to Timor-Leste. DPs, which plan to disburse more than US\$10 million in 2014, including both grant and loan aid, are Australia (US\$58.7 million), Asian Development Bank (US\$39.4 million), European Union (US\$23.7 million), Japan (US\$19.0 million), the World Bank (US\$12.0 million) and the People's Republic of China (US\$11.6 million). Australia will remain the largest DP for Timor-Leste and is planned to provide 27 percent of total ODA to Timor-Leste. The top six development partners mentioned above will contribute more than 75 percent of total ODA to Timor-Leste.

Chart 2: Development Partners for Timor-Leste on 2014 planned disbursement basis (both grant and loan)

Source: Aid Transparency Portal and Information from the Major Project Secretariat

4.3 Alignment to the Strategic Development Plan

As mentioned above, the SDP 2011-2030 and the Government Program are the overarching frameworks for all programs and projects to align with. The planned disbursement of DPs to each pillar and sub-pillar of the SDP in 2014 is indicated in the Table 1. It should be noted that the table simply shows the amount of external assistance in each sector category; it does not mean that all projects are firmly aligned with the “targets” under sub-pillars of SDP.

Among the four pillars, *Infrastructure Development* will receive the biggest portion, approximately 44.8% of total planned disbursements in 2014. Following it, *Social Capital*, *Institutional Framework and Economic Development* will receive approximately 29.1%, 13.1%, and 13.0% of planned disbursements in 2014 respectively. The major recipients of external assistance at the sub-pillar level include (1) *Road and Bridges* (US\$67.0 million, 31.0%), (2) *Health* (US\$32.7 million, 15.1%), (3) *Education and Training* (US\$20.0 million, 9.3%), (4) *Water Supply and Sanitation* (US\$ 16.4 million, 7.6%), (5) *Agriculture* (US\$13.4 million, 6.2%), (6) *Public Sector Management and Good Governance* (US\$12.9 million, 6.0%), (7) *Security* (US\$12.6 million, 5.8%), and (8) *Electricity* (US\$ 8.6 million, 4.0%).

	Sub-Total	28.3	13.1%	
TOTAL		216.0	100.0%	25

4.4 Aid Modality

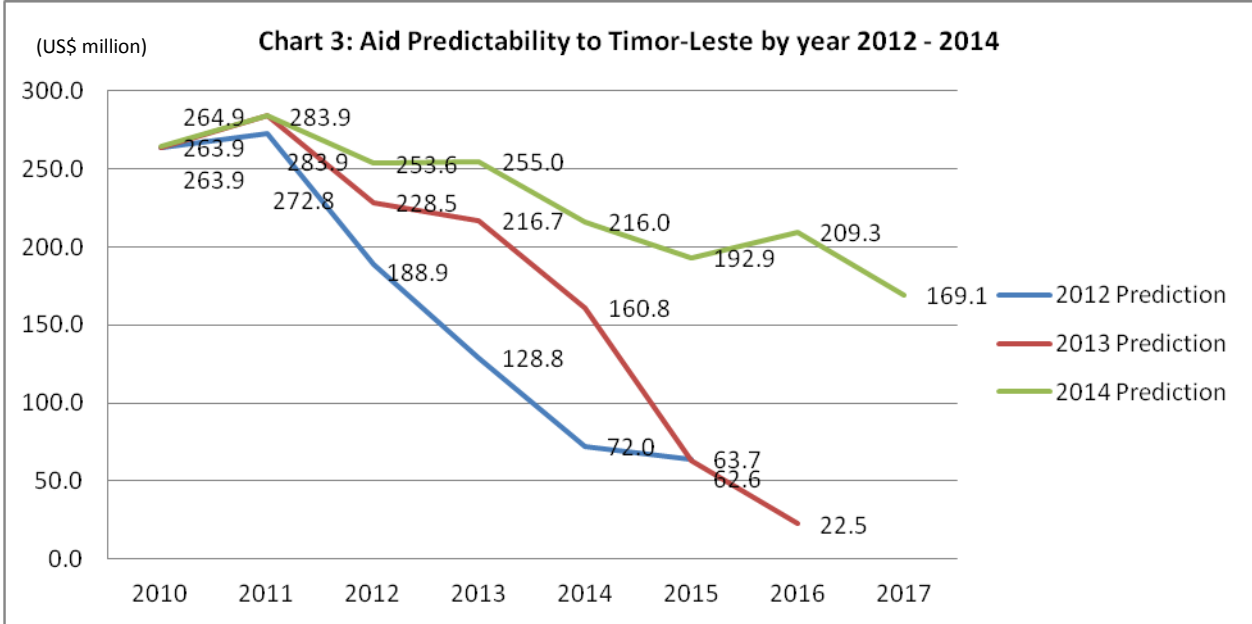

The grant aid to Timor-Leste in 2014 will be provided mostly in the form of off-budget project support. As of 2013, sector program support is not in place.

In loan aid, four projects are on-going and some new projects are being planned.

4.5 Predictability

The budget documents always show a downward trend in the future projections of DPs' support. However, actual disbursements by DPs have remained at a fairly constant level, since the projected amounts of ODA has increased over time. For example, the projected amount of 2013 ODA is higher than in previous years, as indicated in the Chart 3: US\$128.8 million in 2012 budget, US\$216.7 million in 2013 budget, and US\$255.0 million in 2014 budget.

This is because most countries and organizations adopt single year budget cycles, therefore, making it difficult to show multi-year budget projections. Even in one-year future projections of ODA, discrepancies are observed between planned and actual disbursement; actual disbursements are often larger than planned disbursements. As such, the absence of accurate information on DPs’ funding expectations limits the Government’s ability to conduct budget planning, especially medium-term planning and macro-economic analysis on a consolidated basis.

Source: Aid Transparency Portal (2014 Projection) and Budget Book (2012 and 2013 Projection) 2013

Part 5: Development Assistance Projects to Timor-Leste in 2013

5.1 External Assistance by RDTL Beneficiary Institutions (Grant Off Budget)

In 2013, the DPMU collected data from DPs regarding their projected support in 2014 and 3 years into the future, in addition to actual confirmed disbursements for 2011 and 2012. The following tables, directly generated from the ATP, provide a more detailed snapshot of planned DP support in 2014. Each table shows the projects that DPs will be implementing by each ministry in 2013, including DPs, implementing agencies, project title, expected outcomes and planned disbursements. These tables provide Government institutions with the details necessary to create budgets that meet the country's needs.

Table 2: External Assistance by RDTL Beneficiary Institution (Planned Disbursements US\$, ,000)

5.1.10 Ministry of Health

For 2014, the Ministry of Health is supported by \$32.8 million in off-budget grant ODA, from a number of DPs. DP support to the Ministry of Health represents 17.7% of the overall off-budget grant ODA. Projects in 2014 focus on a range of issues from maternal and child health to strengthening the national health system. The largest donor funded project in 2014 is the AusAID, EU and WB funded “Health Sector Strategic Plan Support Project” (US\$8.5 million) which promotes improved healthcare and national guidelines. Additionally, AusAID and China will support projects that promote better access to clean water (US\$5.4 million) and better healthcare (US\$5.0 million).

5.1.11 Ministry of Education

For 2014, the Ministry of Education is supported by US\$12.6 million in off- budget grant ODA, from various DPs. DP support to the Ministry of Education represents 6.8% of the overall off- budget grant ODA. These funds will support a variety of initiatives including scholarships, primary and secondary education and capacity building. The largest project will be the US\$2.0 million USAID “Hillary Rodham Clinton Scholarship” project to provide scholarships that address human capacity needs and gaps in Timor-Leste.

5.1.25 RDTL Beneficiary Unallocated

For 2014, the government of Timor-Leste will receive US\$14.9 million in off- budget grant ODA from DPs that has not been allocated to a specific ministry. This represents 8.1% of the overall off- budget grant ODA. This is due to projects not having been officially agreed upon and which are still in the planning stages.

5.2 External Assistance by RDTL Beneficially Institutions (Loan)

The following loan figures were provided by the Major Projects Secretariat and were not taken from the ATP. In 2012 Loans were introduced for the first time in Timor-Leste; as of August 2013, three loan projects were agreed upon and all of which are for infrastructure development in the field of road and bridges. In 2014, the Government of Timor-Leste will draw down a total of \$31.1 million in concessional loans for upgrading the national road network and infrastructure within Dili. This table represents planned and on-going projects.

5.3 External Assistance by Districts

In 2014 a total of 381 on-going and planned projects are being implemented by both bi-lateral and multi-lateral Development Partners. Allocation by districts of this support from DPs is shown in the chart below. In the following section, we have provided financial information that details the amount of off-budget grant DP funds for 2014 that have been allocated in each district, on projects classified as on-going or planned/ under preparation.

Table 29: Number of Projects Implemented in 2013 by Districts and Sector

The chart above details sectors in which DPs are planning to implement projects across a number of OECD DAC sectors, with the largest numbers of projects and money going to the district of Dili (32 projects), Bobonaro 28 projects, Ainaro and Aileu 26 projects, Covalima 24 projects, Liquisa, Baucau and Ermera 22 projects, Lautem and Manatuto 20 projects, and Manufahi 19 projects, Oecusse and Viqueque 18 projects.

5.3.1 Aileu District

For 2014, there are currently 26 projects to be implemented in Aileu District, with a total allocation of US\$ 8.0 million. Out of the 26 projects, the sectors of transport and storage, agriculture and health have received the largest portions of ODA. These projects have received funding from the European Union, AusAID, UNICEF and the World Bank. Projects include initiatives to provide new seed varieties to increase agricultural output, the rehabilitation of rural roads and improved access to healthcare for women and children.

5.3.2 Ainaro District

For 2014, there are currently 20 projects that will be implemented in the district of Ainaro, with a total allocation of US\$ 4.9 million. Out of the 20 projects, the biggest project identified for Ainaro District is the “Timor-Leste Road Climate Resilience Project” by the World Bank. The project aims to climate resilient road infrastructure and to link roads for emergency access. Additional sectors receiving ODA include education, health, govt. and civil society and water supply and sanitation.

5.3.3 Baucau District

For 2014, there are currently 22 projects that are to be implemented in Baucau District, with a total allocation of US\$ 4.3 million. Out of the 22 projects, four have received the majority of funding and cover the sectors of transport and storage, agriculture and health. These projects will receive funding from the European Union, AusAID, UNICEF and the World Bank. They will include initiatives to provide new seed varieties to increase agricultural output, improved water and sanitation, the rehabilitation of rural roads and improved access to healthcare for women and children.

5.3.4 Bobonaro District

For 2014, 28 projects will be implemented in Bobonaro District, with a total allocation of US\$ 6.0 million. Out of the 21 projects, three sectors received the majority of funding and cover the sectors of transport and storage, agriculture, and health. These projects receive funding from the European Union, AusAID, Government of Japan and the World Bank. These projects include initiatives to provide new seed varieties to increase agricultural output, the rehabilitation of rural roads and improved access to healthcare for women and children.

5.3.5 Covalima District

For 2014, 24 projects will be implemented in Covalima district, with a total allocation of US\$ 9.5 million. The largest project, located in the Transport and Storage sector and the one that makes up the majority of ODA is a US\$ 6.1 million river training project for the protection of the Mola Bridge, funded by a grant from JICA. Additional significant ODA amounts have been allocated to the sectors of government and civil society, health and education.

5.3.6 Dili District

For 2014, 32 projects will be implemented in Dili District, with a total allocation of US\$ 18.5 million. Nearly half of the ODA to Dili will be devoted to the transport and storage sector, with US\$ 1.8 million of those funds for the “Timor-Leste Road Climate Resilience Project.” Other sectors receiving large amounts of ODA include education, health, government and civil society and multi-sector/cross-cutting. These projects received funding from agencies including the European Union, German Government, JICA, New Zealand, AusAID, Work Bank, UNICEF, Portugal, Sweden, Netherland and Spain.

5.3.7 Ermera District

For 2014, 22 projects will be implemented in Ermera District, with a total allocation of US\$ 3.6 million. The sector to receive the largest amount of funding will be Transport and Storage. Of the 22 projects, the largest project, “Enhancing Rural Access,” by the European Union will improve economic growth by

providing better roads to rural communities. Additional funds have been allocated for health, agriculture and government and Civil society sector projects.

5.3.8 Lautem District

For 2014, 20 projects will be implemented in Lautem District, with a total allocation of US\$ 2.6 million. Out of these 20 projects, the largest amount will go to the transport and storage sector, including a US\$ 0.4 million “Roads for Development” project. The aim of the project is to improve economic growth, by providing improved road conditions.

5.3.9 Liquica District

For 2014, a total of 22 projects will be implemented in Liquica District, with a total allocation of US\$ 3.2 million. The majority of funding will cover the sectors of Transport and Storage and Agriculture. Agriculture projects will focus on mud crab cultivation and increasing seed varieties. These projects receive funding from AusAID and the EU. Additional sectors receiving funds include health and transport and storage.

5.3.10 Manatuto District

For 2013, 20 projects will be implemented in Manatuto district, with a total allocation of US\$ 5.8 million. The majority of funding will cover the sectors of Transport and Storage, Agriculture and Water Supply and Sanitation. This includes a US\$ 1.9 million “District Capital Water Supply Project” by the ADB. Other projects get funding from AusAID, European Union, Asia Development Bank, Government of Japan, JICA, Norway and UNICEF. These projects include initiatives to provide new seed varieties to increase agriculture production and the rehabilitation of rural roads.

5.3.11 Manufahi District

For 2014, 19 projects will be implemented in Manufahi district, with a total allocation of US\$ 2.4 million. The majority of funding will benefit the sectors of Health, Agriculture and transport and storage. These projects receive funding from the New Zealand, the European Union, AusAID, FAO, Government of Japan, Oxfam, UNISCO and World Bank. These include initiatives to provide new seed varieties to increase agricultural output, the rehabilitation of rural roads and improved access to healthcare for women and children.

5.3.12 Oecusse District

For 2014, 18 projects will be implemented in Oecusse District, with a total allocation of US\$ 4.7 million. The majority of these projects cover the sectors of Transport and Storage, Water and Sanitation and Health. These projects receive funding from the JICA, AusAID, UNICEF and European Union, Japan and the Government of Sweden. They aim to improve access to healthcare for women and children and improve access to clean water and sanitation. This includes a US\$ 1.9 million “District Capital Water Supply Project” by the ADB and a US\$.7 million “Maritime Transport Connection along the North Coast” project by the German Government.

5.3.13 Viqueque District

For 2014, 18DP projects will be implemented in Viqueque District, with a total allocation of US\$ 2.0 million. The majority of funding will go to the sectors of Transport and Storage, Government and Civil Society and Health. Projects aim to improve rural roads and economic growth and provide new seed varieties to increase agricultural production.

Part 6: Timor-Leste's Financial Contributions through Government Resolution to Beneficiary Countries

As part of expressing Timor-Leste's solidarity to the international community, Timor-Leste is providing financial contributions to other countries who have suffered from natural disasters (earthquakes, floods, hurricanes, typhoons, tsunami, etc.) as well as other areas of support from 2008. The total amount contributed until today is US\$ 10.8 million. The amount and recipient countries are shown in the table below.

Table 30: Financial Contribution to Natural Disasters through Government Resolution (Unit US\$, 000)
