

REPÚBLICA DEMOCRÁTICA DE TIMOR-LESTE

State Budget Approved

2015

Development Partners

Book 5

Book 5 – Development Partners

Preface

The Organic Law of the Ministry of Finance specifies the responsibility of the National Directorate of Budget to collect and manage financial information relating to the public sector and publish the statistical results.

In accordance with this provision and to raise the transparency of the public finance, the Ministry of Finance is publishing the final version of the documents relating to the General Budget of the State 2015, promulgated by His Excellency President of the Republic, following the debate in the plenary session of the National Parliament.

The documentation for the General Budget of the State 2015 consists of the Budget Law, which is published in the *Journal of the Republic*, plus six supporting budget books:

- Book 1 : Budget Overview
- Book 2 : Annual Action Plans
- Book 3A : Districts
- Book 3B : RAE & ZEESM Oe-Cusse Ambeno
- Book 4a and 4b : Budget Line Items
- Book 5 : Development Partners**
- Book 6 : Special Funds

Book 5 *Development Partners* gives details of committed funding from Timor Leste’s development partners up to 2018. The information here is detailed at the level of development partner, implementing agency, project and district. It will inform the public on the ongoing activities and support to Timor Leste by our development partners.

Budget documentation is available on the website Ministry of the Finance, www.mof.gov.tl. Inquiries relating to the publication should be directed to the National Director of Budget, Mr. Salomão Yaquim on email syaquim@mof.gov.tl or telephone +670 333 9518.

As Timor Leste “be a good citizen, be a new hero for our nation”, I believe that this document will increase awareness and understanding of the Government’s finances by providing the people of Timor Leste, civil society and our development partners with relevant information on the 2015 State Budget.

Part 1: External Assistance in Combined Sources Budget 2015

As envisaged in Article 23.4 (b) of Parliamentary Law 2009/13 on the Budget and Financial Management Law of 15 October 2009, the General Budget of the State of Timor-Leste must indicate funding by Development Partners (DPs). The Combined Sources Budget (CSB), which is the combination of general state budget and external assistance provided by DPs, is an important concept in Timor-Leste, as external assistance has substantially contributed to the development of Timor-Leste since its independence. Although the relative size of external assistance as a percentage has decreased as a result of the rapid expansion of the state budget in the recent years, external assistance has constantly exceeded more than US\$200 million per year for the past 11 years.

External assistance indicated in the Budget Book No. 5 is an integral part of the CSB. In 2015, DPs are preparing to provide a total of \$US235.5million for ongoing and planned projects, of which \$US165.5 million will be provided as off-budget grants and \$US70.0 million as concessional loans. There are no scheduled on-budget support grants currently planned for the upcoming years. Although the “External Assistance” concept includes both concessional loan assistance and grant assistance, this Budget Book specifically focuses grant assistance (\$US165.5million), which is indicated as “Development Partner Commitments” in the Budget Book 1, in order to avoid duplicated calculation. The information on concessional loan assistance is presented separately and explored in depth in the Infrastructure Fund in the Budget Book No. 6.

The information on grant assistance in this Budget Book contains the external assistance to be provided by multilateral and bilateral donors to the Democratic Republic of Timor-Leste (RDTL). It includes the external assistance projects executed in direct collaboration with Government Ministries, as well as through Non-Governmental Organizations (NGOs). In Chapter 5, all the external assistance projects to Timor-Leste are presented in accordance with the RDTL beneficiary institutions.

It should be noted that most of the information presented in this Budget Book is derived from the Aid Transparency Portal (ATP), the government database to which DPs are responsible for providing data on all of their contributions. In order to assist the Government to prepare the General Budget of the State for 2015 and for more general aid coordination and effectiveness purposes, DPs are requested by the

Ministry of Finance (MoF), GoTL, to update the ATP on a quarterly basis. All DP assistance data presented in this Budget Book for 2014 to 2017 was generated from a data set produced 17 August 2014.

Part 2: National Development Plans

2.1 Strategic Development Plan 2011-2030

Timor-Leste's Strategic Development Plan 2011-2013 (SDP) was released in July 2011 and articulates Timor-Leste's vision of development for the next two decades. It is based on "Timor-Leste 2020: Our Nation Our Future," and is aligned with the United Nations' Millennium Development Goals (MDG). The SDP is an integrated package of strategic policies, which aims to transform Timor-Leste from a low income to upper middle-income country, with a healthy, well educated and safe population by 2030.

The SDP covers four pillars: (1) social capital, (2) infrastructure development, (3) economic development and (4) Institutional Frameworks. Each pillar sets out the areas and programs that need to be completed to achieve the collective vision of the SDP.

The Social Capital pillar focuses on building a healthy and educated society to address the social needs of Timor-Leste's people and promote human development. It covers five main areas: Education and Training, Health, Social Inclusion, Environment, and Culture and Heritage.

The Infrastructure Development pillar is to ensure that the nation has the core infrastructure needed to build a productive, sustainable, growing and connected nation. It covers six areas: Roads and Bridges, Water and Sanitation, Electricity, Seaports, Airports, and Telecommunications.

The Economic Development pillar aims to achieve a prosperous, modern economy and jobs for Timor-Leste's people. It covers five areas: Rural Development, Agriculture, Petroleum, Tourism, and Private Sector Investment.

The Institutional Framework pillar will help to provide an effective framework upon which the three other aspects of Timor-Leste's development will be built. It covers six areas: Security, Defense, Foreign Affairs, Justice, Public Sector Management and Good Governance, National Development Agency/Economic Policy and Investment Agency.

With the signing of the Dili Development Pact at the 2011 Timor-Leste and Development Partners Meeting (TLDPM), the Government of Timor-Leste and its Development Partners came to an agreement that the SDP will be the overarching framework for all programs and projects to align with in the future.

2.2 Program of the 5th Constitutional Government 2012-2017

On 7 July 2012, the Timorese people, voting in free and democratic elections, supported three parties to govern the country from 2012 to 2017. This result allows the 5th Constitutional Government to continue to build on the foundations of a peaceful and stable nation that were laid down by the 4th Constitutional Government. The philosophy of the 5th Constitutional Government is a continuation of the successful programs of the 4th Constitutional Government. Additionally, it will reform the previous programs that did not meet their objectives under the previous Government.

The Program of the 5th Constitutional Government 2012-2017 (The Government Program) is the Government's method for structuring ideas and ideals. It is based on a socioeconomic political philosophy aimed at delivering better living conditions to the entire Timorese population as soon as possible. The Government Program is based on the SDP and provides a pathway for developing the country over the next five years. It lists what needs to be done in the short term, while incorporating medium term (5-10 years) strategies and not losing sight of the long term (10-20 years). The result will

be to fulfill the collective vision of the Timorese people, to have a developed and peaceful nation by 2030.

The Government Program covers four broad areas aligned with the SDP.

Development of Social Capital: The true wealth of the nation is in the strength of its people. Maximizing the overall health, education and quality of life of the Timorese people is central to building a fair and progressive society.

Infrastructure Development: Core and productive infrastructure is necessary for building a modern and productive economy. The scale and cost of infrastructure development is significant; so the Government needs to plan and implement the infrastructure program in an effective and targeted manner.

Economic Development and Job Creation: The Government aims to develop a flourishing market economy with a strong private sector to provide jobs for people and ensure all parts of the nation benefit from the development of Timor-Leste's natural resources wealth. The Government will focus on expanding and modernizing the agriculture sector, building a thriving tourism sector, encouraging higher levels of private sector activity and activating industries, including the growth and expansion of small and micro business.

Consolidation of the Institutional Framework: The public sector will also be the primary driver of economic growth in the medium term and will lay the foundation for the Nation's progress through the development of human resources and managing infrastructure programs. The Government will structure the public service to reflect the realities of the Timorese situation and to best drive the economy and jobs growth.

2.3 *The New Deal for Engagement in Fragile States*

The "New Deal for Engagement in Fragile States" (*The New Deal*) was presented at the Fourth High Level Forum on Aid Effectiveness in Busan, Korea in November 2011. Since then, more than 40 countries and organizations have endorsed *The New Deal*.

The New Deal outlines a new global paradigm for international engagement in fragile states. It was designed to accelerate the effectiveness of international engagement through the promotion of country-owned and country-led pathways towards peace and resilience. *The New Deal* is comprised of three components:

1. **Peacebuilding and Statebuilding Goals (PSGs)**: These five goals promote five key peacebuilding and statebuilding areas as the foundations for progress towards the MDGs and to guide the work in fragile and conflict affected states
2. **FOCUS**: promotes inclusive country-led and country-owned mechanisms for planning and coordination. These mechanisms ask development partners to work with governments towards a single set of peacebuilding and statebuilding priorities, as identified by country stakeholders themselves.
3. **TRUST**: promotes principles for providing aid and managing resources more effectively and to align these resources for results

The New Deal will continue to be piloted in g7+ countries until 2015. This will ensure the framework is adaptable and implementable, which will enable g7+ countries to achieve country-owned and country-led transitions towards resilience.

In Timor-Leste, a fragility assessment was conducted in July-August 2012 as part of the New Deal piloting process. The key results from the assessment are shown below:

PSG	Result
PSG2 Security	Has the biggest area of progress
PSG 1 Legitimate Politics PSG 5 Revenue and Services	Has made some good progress
PSG 3 Justice PSG 4 Economic Foundation	The areas that need more attention in the future for improvement

In the beginning of 2014, the New Deal Country Survey was carried out in Timor-Leste in order to review the progress of and lessons learned from the New Deal Implementation up to the present and to have a dialogue among stakeholders. This survey was conducted as a joint exercise led by Government of Timor-Leste in collaboration with development partners (DPs) and civil society in Timor-Leste. The Government has committed to fully and steadily implement the New Deal by ensuring the fulfillment of FOCUS and TRUST.

Part 3: Improved Development Partnership

3.1 Development Partnership Management Unit

The Development Partnership Management Unit (DPMU), Ministry of Finance (MoF), was established under the new Organic Law for the MoF in 2012. The DPMU is situated directly under the supervision of the Minister of Finance. The main responsibility of DPMU is to ensure the effective use of the external assistance provided by DPs to Timor-Leste, so as to guarantee coordination and harmonization in accordance with the development priorities set by the Government. The DPMU is also responsible for the New Deal Implementation in Timor-Leste and the Director of DPMU is appointed as a focal point for this purpose.

3.2 Aid Transparency Portal

The ATP (<https://www.aidtransparency.gov.tl>) is based on the Aid Management Platform (AMP), which is the system that now forms the central database for all aid information in Timor-Leste. All information collected in the system is directly inputted into the system by Development Partners. The ATP has enabled the Government to collect more accurate and predictable data and to disseminate the data into more meaningful reports and analysis. Since 2012, the Budget Book No. 5 and the Development Cooperation Reports have been produced with data from the ATP.

The ATP allows all government ministries and Development Partners to better understand the level of Official Development Assistance to Timor-Leste. Equipped with the ATP, DPMU is able to further contribute to preparing quality State Budgets. The creation of the ATP allows for ease of access to current information on all DP assistance, by Government beneficiary institution, region, sector, SDP pillar, DP, providing information on obligations and disbursements.

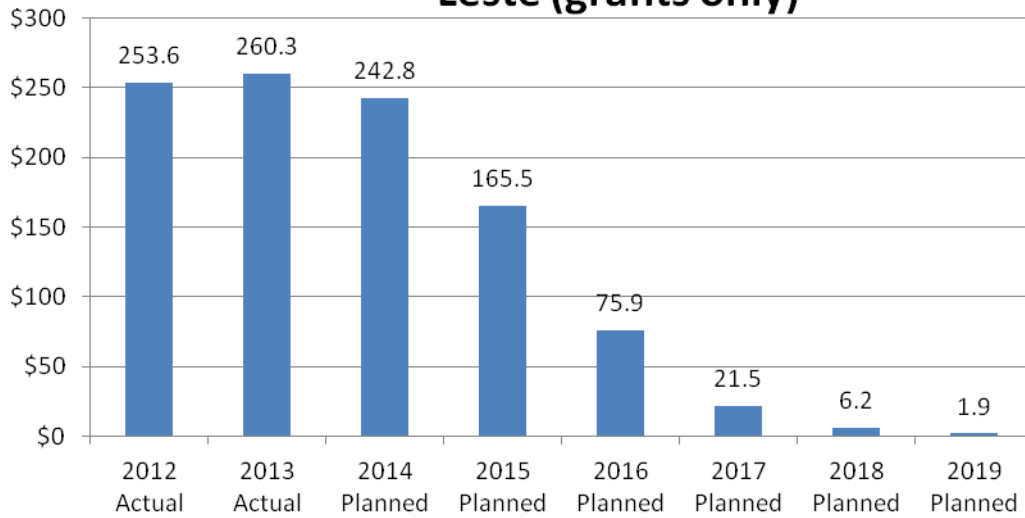

In 2013, a new dynamic mapping feature was added to the ATP that allows donors, Government, and the public to track where ODA is being channeled within the country. As a result, 2,800 project locations were geo-coded and are now displayed on the Aid Transparency Portal's Aidmap.

Part 4: Trend of Development Assistance to Timor-Leste

The amount of external assistance (grant) to Timor-Leste remains at the level of US\$250±million per annum from 2011 to 2013. The external assistance as a percentage of the CSB has become smaller, decreasing from 23.5% in 2010 to 11.0% in 2014 on a planned basis. In 2015, a planned total of US\$165.5 million in off-budget grant will be provided to Timor-Leste.

A significant downward trend in off budget grant is shown between 2015 and 2019; however, this is due to the non-availability of accurate information on planned expenditure in the medium term by a number of DPs, and so does not reflect a lack of international support or commitment. New commitments against future years are expected as time passes.

Chart 1: External Assistance Committed to Timor-Leste (grants only)

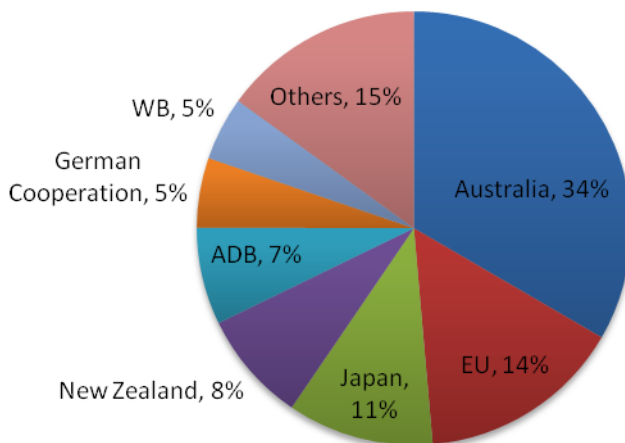

Source: 2011-2013 figures are from previous years' Budget Books. 2014-2019 figures are directly from the Aid Transparency Portal, as of 17 August 2014.

4.2 Development partners in Timor-Leste

In 2015, 8 multilateral and 10 bilateral DPs committed to provide external assistance to Timor-Leste. The top seven DPs, in terms of total planned grant disbursements are as follows: are Australia (US\$56.0million), European Union (US\$22.9 million), Japan (US\$18.3 million), New Zealand (US\$13.9 million), Asian Development Bank (US\$12.1 million), Germany (US\$8.7 million), and the World Bank (US\$7.9 million). Australia will remain the largest DP for Timor-Leste and is planning to provide 33.8% of total external assistance (grant) to Timor-Leste. The top seven development partners mentioned above will contribute approximately 84.5% of total external assistance (grant) to Timor-Leste.

Chart 2: Development Partner Planned Disbursements for 2015 (grants only)

Source: Aid Transparency Portal

4.3 Alignment to the Strategic Development Plan

As mentioned above, the SDP 2011-2030 and the Government Program are the overarching frameworks for all programs and projects to align with. The planned disbursement of DPs to each pillar and sub-pillar of the SDP in 2015 is indicated in the Table 1. It should be noted that the table simply shows the amount of external assistance in each sector category; it does not mean that all projects are firmly aligned with the “targets” under sub-pillars of SDP.

Among the four pillars, *Social Capital* and *Infrastructure Development* will receive approximately 33.2% and 33.1% respectively of total planned grant disbursements in 2015. Followed by, *Economic Development* and *Institutional Framework*, which will receive approximately 21.7% and 10.9% respectively. The major recipients of external assistance at the sub-pillar level include (1) *Road and Bridges* (US\$39.1 million, 23.6%) (2) *Health* (US\$24.9 million, 15.0%), (3) *Education and Training* (US\$21.1 million, 12.8%), and (4) *Agriculture* (US\$20.5 million, 12.4%).

Source: Aid Transparency Portal

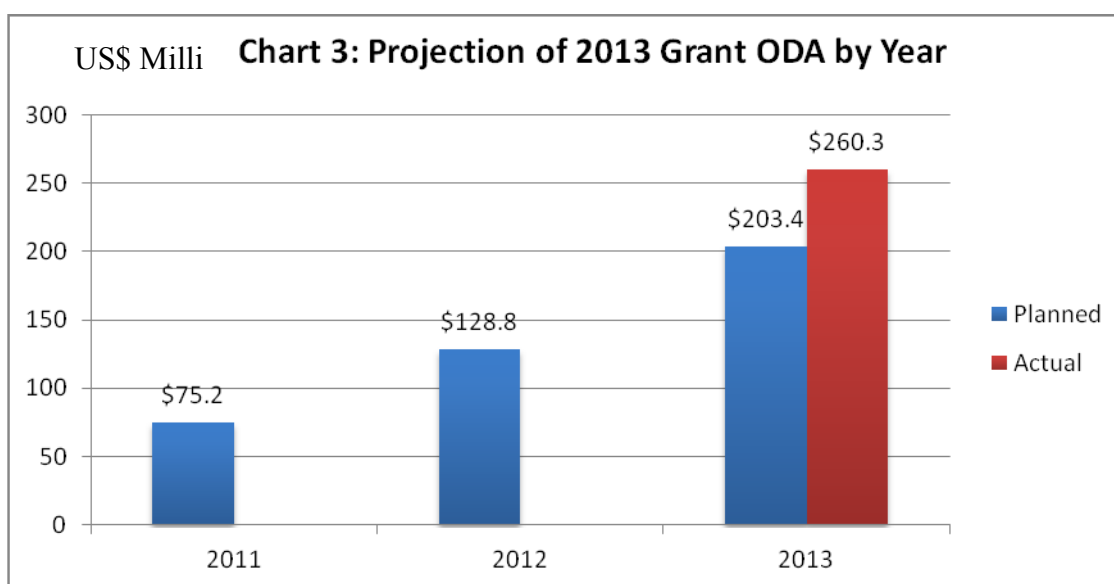

4.4 Aid Modality

The grant aid to Timor-Leste in 2015 will be provided mostly in the form of off-budget project support. As of 2014, sector program support is not in place.

It is notable that the Direct Budget Support Program was launched in 2014 on the basis of guiding principles from the *New Deal*. This program supports capacity building and strengthening the Ministry of Finance within its planning framework and clearly stated priorities.

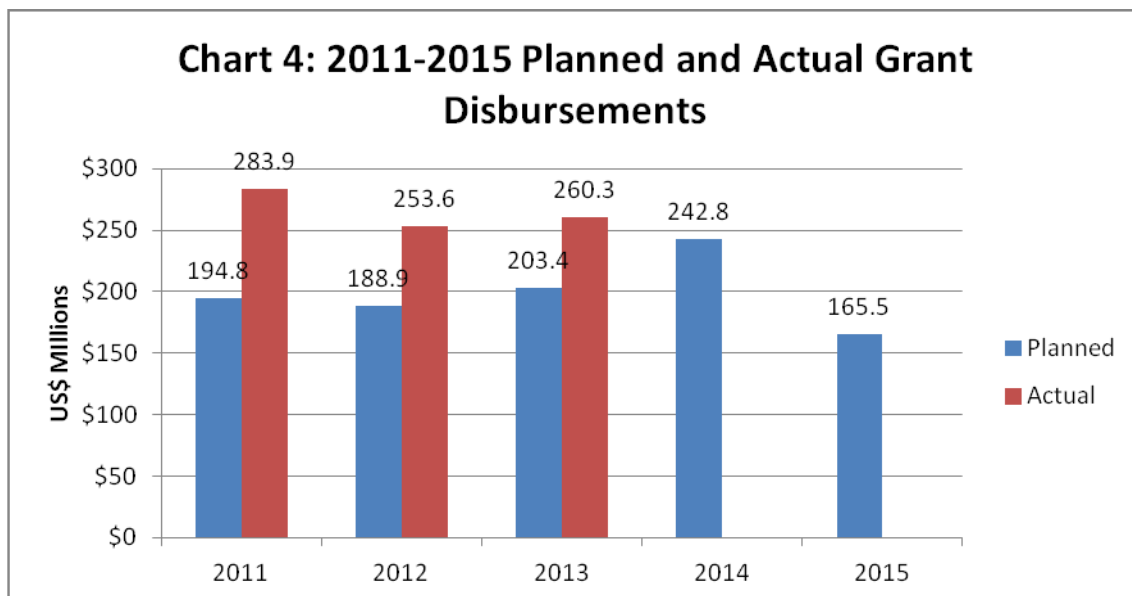

4.5 Predictability

Up to present, multi-year projections of external assistance are not very reliable. Each of the past years has shown a downward trend in future projections of DPs' support (see Chart 1). However, actual disbursements by DPs remain at a fairly constant level, since the projected amounts of ODA has increased over time. As shown in the Chart 3, the external assistance (grant) of 2013 was projected as US\$75.2 million in the 2011 State Budget, US\$128.8 million in the 2012 State Budget, and US\$203.4 million in the 2013 State Budget. As such, DPs have difficulty in providing accurate multi-year projections, in part due to their single year budget cycles and input ODA data after concluding project agreements.

Source: Budget Books (2011-2013 Planned Disbursement), Aid Transparency Portal (2013 Actual Disbursement)

Even in one-year future projections of external assistance, discrepancies are observed between planned and actual disbursement; actual disbursements are often larger than planned disbursements (see the Chart 4). As such, the absence of accurate information on DPs' funding expectations limits the Government's ability to conduct budget planning, especially medium-term planning and macro-economic analysis on a consolidated basis.

Source: Budget Books (Planned Disbursement from 2011-2013), Aid Transparency Portal, 17 August 2014 dataset (Actual Disbursement 2013 and Planned Disbursement 2014 and 2015).

Part 5: Development Assistance Projects to Timor-Leste in 2013

5.1 External Assistance by RDTL Beneficiary Institutions (Grant Off Budget)

In 2014, the DPMU collected data from DPs regarding their projected support in 2015 and 3 years into the future, in addition to actual confirmed disbursements for 2012 and 2013. The following tables, directly generated from the ATP, provide a more detailed snapshot of planned DP support in 2014. Each table shows the projects that DPs will be implementing by each ministry in 2013, including DPs, executing agencies, project titles, expected outcomes and planned disbursements. These tables provide Government institutions with the details necessary to create budgets that meet the country's needs.

Table 2: External Assistance by RDTL Beneficiary Institution (Planned Disbursements in US\$1,000)

5.1.1 Office of President

In 2014, the European Commission is the single donor and is set to provide US\$95 thousand in off budget ODA to the Office of President for technical assistance and will not receive any off-budget ODA from 2015 up to 2019.

Table 3: Office of the President Administered with Government (US\$ 1,000)*Refers to total cost of the budget over life of the project, which may be more than 5 years.

Development Partner	Executing Agency	Project Title	Expected Outcomes	*Project Budget	2014	2015	2016	2017	2018	4 Years Total
European Union	European Union	Legal Adviser in the Department of Consultation and Legal Affairs		157	95	-	-	-	-	95
TOTAL				157	95	0	0	0	0	95

5.1.2 National Parliament

The National Parliament will be the recipient of US\$3.4 million in off- budget ODA in 2014. UNDP is acting at the executing agency in both projects benefitting the National Parliament, however a majority of the funds were provided through the EU funded Strengthening Institutional capacity of the National Parliament in Timor-Leste project. Both projects do not have additional disbursements after the conclusion of 2014.

5.1.4 Vice Prime Minister and Coordinator of Social Affairs

For 2015, the Vice Prime Minister and Coordinator of Social Affairs office will be supported by US\$6.9 million in DP assistance. The largest scheduled disbursement in 2015 is of US\$2.2 million, from the Asian Development Bank-funded Mid-Level Skills Training Project (Grant Project). It is important to note that the Vice Prime Minister and Coordinator of Social Affairs includes the Secretary of State for Youth and Sport, the Secretary of State for Professional Training and Employment Policy, and the Secretary of State for the Promotion of Equality.

5.1.10 Ministry of Health

For 2015, the Ministry of Health is supported by \$25.2 million in off-budget grant ODA, from a number of DPs. DP support to the Ministry of Health represents 15.2% of the overall off-budget grant ODA. Projects in 2015 focus on a range of issues from maternal and child health to strengthening the national health system. The largest donor funded project in 2015 is the DFAT funded, Rural Water Supply project (US\$6.5 million), followed closely by a DFAT, EU, and WB funded “Health Sector Strategic Plan Support Project” (US\$5.8 million) which promotes improved healthcare and national guidelines.

5.1.11 Ministry of Education

For 2015, the Ministry of Education is supported by US\$17.3 million in off- budget grant ODA, from various DPs. DP support to the Ministry of Education represents 10.5% of the overall off- budget grant ODA. These funds will support a variety of initiatives including scholarships, primary and secondary education and capacity building. The largest project will be KOICA's US\$3.5 million project, "The Project for the Facilities Improvement of Becora Technical High school."

5.1.15 Ministry of Public Works

For 2015, the activities of the Ministry of Public-Works will be supported by DP projects, with a total value of US\$51.1 million in off-budget grants. This makes up 30.9% of the total DP off- budget grant support for Government activities in 2015. The Ministry of Public Works is the recipient of two projects that both exceed US\$10 million, DFAT funded Roads for Development (US\$13.1 million), and World Bank funded District Roads and Rehabilitation project (US\$10.7 million).

5.1.16 Ministry of Transport and Communication

For 2015, the activities of the Ministry of Transportation and Communication will be supported by four DP projects, valued at US\$5.0 million. This makes up 3.0% of the total DP support for Government activities in 2015. The Majority of this funding will go to a maritime connection to the North Coast project (US\$2.5 million) by the German Government.

5.1.23 Office of the Provedor of Human Rights and Justice

In 2015, the Office of the Provedor of Human Rights and Justice will receive funding from a single project in off- budget grant ODA totaling US\$59 thousand. This funding will be provided by the New Zealand Aid Programme Ministry of Foreign Affairs and Trade to improve the English language capacity of government officials and will continue until 2017.

5.1.26 RDTL Beneficiary Unallocated

For 2015, the Government of Timor-Leste will receive US\$11.8 million in off-budget grant ODA from DPs that has not been allocated to a specific ministry. This represents 7.1% of the overall off- budget grant ODA. There are several reasons why these projects may not have been allocated to specific ministries. For example, volunteer programs cannot be assigned to a specific ministry since this simply represents the funding allotted to support volunteers in various positions.

Table 27: RDTL Beneficiary Unallocated- Activities Administered with Government (US\$,000) *Refers to total cost of the budget over life of the project, which may be more than 5 years.

5.2 External Assistance by Districts

In 2015, a total of 122 on-going and planned projects are being implemented and are scheduled to receive disbursements by both bi-lateral and multi-lateral Development Partners. Allocation by districts of this support from DPs is shown in the chart below. In the following section, we have provided financial information that details the amount of off-budget grant DP funds for 2015 that has been allocated in each district, on projects classified as on-going or planned/ under preparation.

Table 29: Planned Project Disbursements in 2015 by Districts and Sector

The chart to the left details sectors in which DPs are planning to implement projects across a number of OECD DAC sectors. Although the Timor-Leste Government prioritizes the use of SDP's, OECD-DAC sectors are still useful for analysis. The largest numbers of projects are going to the district of Dili (32), followed by Bobonaro (21), Baucau and Liquica (18 each), Ermera and Ainaro (17 each), Manatuto and Lautem (16 each), Aileu (15), Oecussi (14) Cova Lima (12), Viqueque (11), and Manufahi (9). Total disbursements are detailed below.

5.2.1 Aileu District

For 2015, there are currently 15 projects to be implemented in Aileu District, with a total allocation of US\$ 4.8 million. Out of the 15 projects, the sectors of transport and storage, agriculture and health have received the largest portions of ODA. The overwhelming majority of disbursements are in the Transport and Storage Sector. The two largest disbursements will come in the form of World Bank and a DFAT funded projects that focus on road development, "Timor Leste Road Climate Resiliency Project" (US\$1.3 million), and "R4D – roads for Development" (US\$0.8 million) respectively.

5.2.2 Ainaro District

For 2015, there are currently 17 projects that will be implemented in the district of Ainaro, with a total allocation of US\$ 5.3 million. In total, the two largest sector disbursements will be made to Transport and Storage and Agriculture. The largest disbursement in the Transport and Storage sector will come about as a result "Timor-Leste Road Climate Resilience Project," funded by the World Bank (US\$1.3 million); meanwhile, the largest disbursement for the Agricultural sector will come from the New Zealand Aid Programme-funded, "Fostering Agribusiness Success in Timor-Leste (FAST)" (US\$1.2 million).

5.2.3 Baucau District

For 2015, there are currently 17 projects that are to be implemented in the Baucau District, with a total allocation of US\$ 12.7 million. Out of the 17 projects in Baucau's portfolio, the sectors that are scheduled to be most heavily funded are Water Supply and Sanitation and Agriculture. These projects will receive funding from the European Union, AusAID, UNICEF and the World Bank. They will include initiatives to provide new seed varieties to increase agricultural output, improved water and sanitation, the rehabilitation of rural roads and improved access to healthcare for women and children. The two largest disbursements in this district will occur as part of the JICA funded "The Project for Rehabilitation of Buluto Irrigation Scheme," (US\$ 3.1 million) and DFAT funded "Rural Water Supply and Sanitation" (US\$4.3 million).

5.2.4 Bobonaro District

For 2015, 21 projects will be implemented in Bobonaro District, with a total allocation of US\$13.2 million. Three sectors received the majority of funding and cover the sectors of Water Supply and Sanitation and Transport and Storage. Once again, the largest project in terms of funding will be DFAT's "Rural Water Supply and Sanitation" (US\$2.3 million) followed by ADB funded "Road Network Development Sector Project" (US\$4.4 million).

5.2.5 Covalima District

For 2015, 12 projects will be implemented in Covalima district, with a total allocation of US\$ 9.1 million. The largest project, located in the Transport and Storage sector, is a US\$4.4 million "River Training Project for the Protection of the Mola Bridge" project funded by a grant from JICA. Additional significant ODA amounts have been allocated to projects focused on road construction and maintenance.

5.2.6 Dili District

For 2015, 32 projects will be implemented in Dili District, with a total allocation of US\$ 13.4 million. Nearly half of the ODA to Dili will be devoted to the Education sector, with US\$ 3.5 million of those funds originating from the KOICA-funded, "The Project for the Facilities Improvement of a Becora Technical High School." Other sectors receiving large amounts of ODA include Transport and Storage and Sectors. These projects will receive funding from agencies including the European Union, German Government, JICA, New Zealand, AusAID, Work Bank, UNICEF, Portugal, Sweden, Netherland and Spain.

5.2.7 Ermera District

For 2015, 17 projects will be implemented in Ermera District, with a total allocation of US\$ 6.2 million. The sector to receive the largest amount of funding will be Transport and Storage. Of the 17 projects, the largest project disbursement of US\$ 1.6 million will come from "G0180: Road Network Development Sector Project." This project is funded by the ADB and aims to improve economic growth by providing better access to social and economic facilities in project areas. Additional funds have been allocated for health, agriculture and government and Civil society sector projects.

5.2.8 Lautem District

For 2015, 16 projects will be implemented in Lautem District, with a total allocation of US\$ 5.0 million. Out of these projects, the largest amount will be dedicated to the transport and storage sector, including a US\$ 2.0 million disbursement for the "Roads for Development" project. The aim of the project is to improve economic growth, by providing improved road conditions.

5.2.9 Liquica District

For 2015, a total of 18 projects will be implemented in Liquica District, with a total allocation of US\$9.1 million. The majority of funding will cover the sectors of Water and Sanitation, Transport

and Storage and Education. The largest disbursement, of US\$4.3 million will come from DFAT-funded “Rural Water Supply and Sanitation (BESIK)” project.

5.2.10 Manatuto District

For 2015, 16 projects will be implemented in Manatuto district, with a total allocation of US\$8.2 million. The majority of funding will cover Agriculture, with a total of \$4.8 million dedicated to the Sector, of which US\$3.1 million will be disbursed as part of JICA’s “Project for Rehabilitation of Buluto Irrigation Scheme.”

5.2.11 Manufahi District

For 2015, 9 projects will be implemented in Manufahi district, with a total allocation of US\$ 2.6 million. The majority of funding will benefit the sectors of Transport and Storage and Health. The two largest project disbursements will come from DFAT’s “Roads for Development” project, with a US\$1.3 million planned disbursement, and the multi-donor project and World Bank executed, “Health Sector Strategic Plan Support Project,” with a US\$0.5 million planned disbursement.

5.2.12 Oecusse District

For 2015, 14 projects will be implemented in Oecusse District, with a total allocation of US\$ 8.4 million. The majority of the funding, over half of all planned disbursements, will go to the Transport and Storage sector, with the largest disbursement (US\$2.4 million) expected to take place as part of the DFAT funded “Roads for Development” project. Another major project disbursement in the District is to take place as part of the German-funded “Maritime Transport Connection along the North Coast,” with a disbursement scheduled for US\$1.3 million.

5.2.13 Viqueque District

For 2015, 11 projects will be implemented in Viqueque District, with a total allocation of US\$ 1.9 million. The majority of funding will come about from projects dedicated to the Agriculture Sector, of which, the highest disbursement is to take place as part of the DFAT funded Seeds of Life project, with US\$0.5 million.

Part 6: Timor-Leste's Financial Contributions through Government Resolution to Beneficiary Countries

As part of expressing Timor-Leste's solidarity to the international community, Timor-Leste is providing financial contributions to other countries who have suffered from natural disasters (earthquakes, floods, hurricanes, typhoons, tsunami, etc.) as well as other areas of support since 2008. The total amount contributed until the end of 2013 is US\$24.8 million. The amount and recipient countries are shown in the table below.

Table 30: Financial Contribution to Natural Disasters and other areas through Government Resolution (Unit US\$, 000)
